

Integrated Features on TAPP®

We work with other companies and creators to add convenient new features to TAPP® and the TAPP Platform!

When YOU use these features, you'll sometimes share certain data with the companies that helped provide them.

To learn more, read our ***Privacy Policy***! Also, be sure to read up on each of these services' own privacy policies to get all the details.

Google Maps

Google Maps can provide a place's location, directions to it, and transit information.

Dark Sky API

Dark Sky can provide a location's current weather conditions and forecasts.

Bing Images

Bing Images can provide an image(s) to a List.
